VOLUME TEN

STONY PLAIN, ALBERTA, THURSDAY, OCT. 24 1929

Whole Number 481

CHEVROLET SIXES
Sold this year
as any other six
at any price
in any year!

NO other six-cylinder car has ever earned, in any year, one-third the public acceptance . . . one-third the volume of sales . . . which have been bestowed upon Chevrolet Six during the nine months since its introduction.

This tremendous public acceptance is due to three outstanding facts. To the fact that Chevrolet offered, for the first time in history, a six at the price of a four . . . To the superb standard of quality in Chevrolet's design, material and workmanship. And to the new, greatest performance abilities that Chevrolet Six provided. Chevrolet Six was four years old in experiment, in research, in testing, in proving . . . before the first Chevrolet Six was placed in the hands of its owner. And that owner . . . like the million and a quarter owners who followed his example . . . SOLD HIMSELF on the Chevrolet he bought . . . on the road, behind the wheel. Why not let us place a Chevrolet Six at your disposal . . . and form your own opinion of its value.

Sunday's Motor Car Accident

On Sunday evening another motor car accident occurred at that well-known dangerous spot on the Baseline near John P. Fuhr's gate, when Sedan No. 67829 met Touring No. 10763. Both cars got bumped off the high grade—one on either side. Aleck Stanners was driving the east-bound car, containing Mrs. Joe Best and children, of Dunfield, who were going to Edmonton for a week's visit. The boy and baby both went thru the front window of the sedan, the boy receiving a nasty cut on the leg. The touring car was driven by Mr. Louis Burdette, and altho the car went down the 12-foot grade, the occupants escaped serious injury.

At the Bar.

On Tuesday next, at the local Court, the case of Mr. Yerko Capp, the well-known farmer of Carvel district, charged with firing stacked grain crops, will come up. Yerko has been out on \$5000 bail.

The case of Mr. Ciccarelli of Edison will also come up. Mr. Ciccarelli was driving the car which was in an accident on the Baseline, Sunday, Oct. 13. He is charged, under the V. & H. T. Act, with reckless driving.

Several other cases of minor importance will be heard.

Appeal Allowed.

The appeal in the Louie Goshel prairie fire case was concluded in an Edmonton court on Friday, and the appeal allowed, thus quashing the conviction. In giving his decision, the judge is said to have intimated there was good grounds for a civil action by those who suffered loss by the fire. About the time the fire occurred, Mr. Sadrozny lost a granary and implement shed thru running fire which came in on his west quarter section.

Pre-Election News

Guns of the United Farmer party may boom in the Federal ridings of East and West Edmonton, says the Edmonton Journal, during the next Dominion election campaign. Members are talking of placing candidates in both constituencies, making three cornered fights a certainty. Arrangements are under way at the present time for a joint meeting of members of the U. F. A. federal constituency associations in both ridings when election plans will be decided. Whether only one or both of the ridings should be contested in the Farmer interests will then come up for consideration, but it is expected that plans will be made for conventions at which candidates will be chosen.

The Average Man and the League

With the closing of the tenth assembly of the League of Nations it is well for those, both in the cities and towns, and the country districts, to get some idea of what the League means to the average citizen.

Immersed in our own affairs and the daily complexities and worries of life, it is hard for the man in the street, or the man in the field to realize what the League means to him. All of us are somewhat hazy about world politics, especially in these days when indifferent crops and business complications make us apt to concentrate on our own immediate affairs. Occasionally we hear high sounding phrases glorifying the accomplishments of the League; at other times the sneers of cynics who advise us to go about our business and take no stock in an agency which can never have any beneficial or practical effect on our lives.

Yet the League and what is done at Geneva are of tremendous concern to all of us. A well-known Canadian writer has said: "The League of Nations is not the infallible and mighty thing described in superfluous rhetoric by certain orators, the nations do not tremble with fear at its frown, it has disappointed romantic visionaries, and it does a number of things to which little attention is paid." Yet despite all of this, and notwithstanding some failures, the League has more than justified itself. In ten years it has prevented ten wars and become an effective central agency for the consideration of crises and the employment of commonsense arbitration in great and small disputes.

Some people have thought that the League ought to be able to almost automatically put an end to ill-feeling between two South American republics, or prevent Arabs slaughtering Jews in Palestine, in the twinkling of an eye. Such action is almost beyond the power of any agency devised by man. Hate, born of jealousy, avarice, racial and religious antipathy may blaze into wholesale murder at any moment and justice and commonsense are powerless for the moment. But such an agency as the League has time and again proved that once the first outburst is spent, it can prevent the trouble spreading and restore peace and sanity by conciliation, and if necessary, the invoking of economic and armed pressure.

The League of Nations, in short, has won the respect of the world, not only as an agency that can prevent war, but as a necessity that has grown up with the complexity and interdependence of modern international life.

Canada, like the other nations, and the citizens of Canada, in town and country, must stand foursquare behind its efforts if our children and our children's children are to be delivered from those horrors which took the flower of our youth, and made the world a nightmare of strife.

Canada has, up to the present, taken a worthy place in the councils of the League. Other nations have recognized the value of the Canadian contribution, realizing that to a greater extent, perhaps, than most Old World nations, Canada's position is an unselfish one, the outcome of a sincere desire to promote world peace in the interests of all, and not chiefly for the purpose of promoting Canadian security or advancing purely Canadian interests.

Canada's future contribution can only be measured by the degree of interest manifested by its citizenship and the support extended by the Canadian people to their Government in all efforts put forth to strengthen the League and enlarge the scope of its humanitarian and peace promoting programmes.

Deposits Are Important

British and American Capital Interested in Manitoba Tin

"British and American capital is definitely interested in the possibilities of tin in Manitoba," according to the Free Press Evening Bulletin. "Tin ore has been found in many places and work now in progress in two or three camps will go far towards proving whether or not it is to be found in commercial quantities. But whatever the outcome, both British and American capitalists intend to be strongly represented, because of the supreme importance of such deposits."

Napoleon Bonaparte was about five feet three inches in height.

High Quality Seed

Inspection Shows Ample Supply To Meet Requirements

G. M. Stewart, head of the Dominion seed branch at Calgary, states that the 1929 inspection of standing fields of grain for members of the Canadian Seed Growers' Association, shows it can be reasonably expected that there will be an ample supply of seed of high quality to meet requirements for next year. Yields seem to be somewhat higher than had been generally reported. There were nine inspectors out and 500 fields viewed, including many in the Peace River country.

The honest grafter confines his operations to trees and shrubs.

Alberta As Oil Producer

Production Now Greater Than That Of Montana, New Mexico and Colorado

Alberta is now producing more oil than the states of Colorado, New Mexico and Montana combined, according to a compilation made by F. J. S. Sur, Calgary geologist. He said: "It may be interesting to the oil fraternity of Canada to know that although Alberta is a body in the ranks of the oil producing regions, it is producing now from its Turner Valley field more oil barrels than the combined output of Montana, New Mexico and Colorado; and when the figures are computed into dollars the value of Alberta's production is seen to be more than twice that of the three states in question."

The Industrial West

Growing Importance Of Manufacture Is Shown By Recent Figures

"Western Canada is no longer merely a wheat and cattle country," says the Winnipeg Board of Trade News Bulletin. "While it is the greatest factor in the world's wheat market, the importance of its manufactures is also steadily increasing. A recent return shows that there are the three provinces of Manitoba, Saskatchewan and Alberta, 2,850 manufacturing concerns with a capital investment of over \$270,000,000. Manitoba leads with 859 industrial establishments. Alberta is third, with 776, and Saskatchewan with 721."

NO MEDICINE LIKE

BABY'S OWN TABLETS

Once a Mother Has Used Them She Will Use Nothing Else

To once use Baby's Own Tablets is to use them continually—that is as long as there are young children in the home. That is the testimony given us by mothers from all parts of Canada. They all say that they know of nothing to equal the Tablets, that they find them safe and efficient and at the same time pleasant to take.

Mrs. John Hollinworth, Maidstone, Ont., writes:—"I have three children, the eldest fourteen and the youngest nine months old. I have always used Baby's Own Tablets for them and have found no other medicine to equal the Tablets as a relief for the many ailments of childhood."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach. They drive out constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadian Wheat For India

A shipment of Canadian wheat consigned from Montreal to India is believed to establish a new record in Canadian wheat exports. Conditions in India called for outside purchases and Canada, as the foremost wheat exporting country in the world, received the order.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infestation are removed, and satisfactory growth is assured.

Receives New Appointment

Dr. Seymour Hadwen, research of animal diseases at the University of Saskatchewan, has been appointed director of veterinary science for the Ontario Research Foundation.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

England Sends Trees To China

To Be Planted Around Mausoleum Of Sun Yat-Sen

Representative trees, an oak sapling and a young birch tree are to be sent from Kew Gardens, London, England, to be planted in the grounds surrounding the mausoleum of the Chinese statesman, Sun Yat-sen at Canton. Reports from the East say that when the mausoleum of the first Chinese president and its surroundings are completed, they will form one of the world's most beautiful spectacles.

The call of the open road: "Drive over to one side while I give you a ticket."

The earth is believed to be solid at least half way to the center.

A Pertinent Question

Canada last year produced 2,414,301 tons of newsprint, valued at \$144,146,632. Pulp and paper is now the Dominion's chief manufacturing industry. But what are Canada and the United States doing to anticipate forest conditions 20 years hence?

Dyeing this way makes faded Dresses NEW

DIAMOND DYES are the finest dyes you can buy. They are made to give you real service. They contain the very highest quality color that can be produced. It's the quality of the anilines in Diamond Dyes that give them that bright, new-looking color; that make them go on so evenly—without spotting or streaking; that enable them to keep their depth and brilliance through wear and washings. Next time you have dying to do, try Diamond Dyes. See how easy and simple it is to use them. Then compare results. You will surely agree. Diamond Dyes are better dyes. The white package of Diamond Dyes

is the highest quality dye, prepared for general use. It will dye or ~~rein~~ silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk and wool only. When you buy your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods including silk and wool. Your dealer has both packages.

Diamond Dyes Sun Proof

EASY TO USE—BETTER RESULTS

Diamond Dyes contain the highest quality anilines money can buy. And it is the only dye that counts. They are the life of color. Brilliant and permanent. ALL DEALERS 15¢

6 Suggestions

Make Your Farm More Comfortable, More Livable and More Profitable with These Simple Spare-time Improvements

If you have any time on your hands here are six suggestions which will make an amazing difference in the attractiveness and efficiency of your farm.

First—Buy a supply of Gyproc Fireproof Wallboard. Then erect Gyproc partitions in your attic, changing the waste space into an additional room or two. Imagine how much more comfortable the family will be with the attic converted into a clean, inviting third story.

Second—Renovate the lower rooms by nailing Gyproc right over cracked and faded walls. You can decorate the flat, smooth Gyproc surfaces with Alabaster, paint or any other finish. And what a difference it will make to your home.

Third—Line your garage with Gyproc. Gyproc will make it fire-proof, cold resistant and a safer, more substantial home for your car.

Fourth—Gyproc your poultry house. Your flock will have better health, and year-long protection from fire, cold, heat and vermin.

Fifth—Line your grain-bin, barns, stables and other buildings with Gyproc. By doing so you will make them more valuable, fire-safe, cold resistant and 50 per cent. more healthful for your stock to live in.

Sixth—Look about for cracked, warped or rotted walls, partitions and ceilings and repair with Gyproc. Such repairs are quick and inexpensive to make because Gyproc saws, nails and glue so easily—saving time and labor.

CANADA GYPROC AND ALABASTINE, LIMITED

Fireproof Wallboard

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali which neutralizes many times its volume in acid.

The right way is in Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Commander MacMillan After Investigation Believes Polar Ice Cap Is Growing Smaller

Discovery of the ice cap "meta-ignita," which now covers an area of 700 square miles, with a maximum depth of 3,000 feet, between Prohla's Bay and Hudson Strait, long sought by scientists, was reported by Lieut. Commander Donald B. MacMillan, on his return from a summer's Arctic trip, on the schooner "Bowdoin." It was estimated to have at one time extended over 4,000,000 square miles.

MacMillan said that this was believed to be the last of the ice caps of the Pleistocene period, which covered all of New England, except the tip of what is now Mount Washington, to a depth of 5,000 feet, over a period of 35,000 years. He said the ice cap actually consisted of two caps, one of approximately 400 square miles, and the other of 300 square miles. Four glaciers were discharging from it into the bay, all flowing north.

The ice cap is "receding," according to MacMillan, thus settling a question (as far as MacMillan is concerned), long in the minds of scientists, who have been anxious to know whether it was receding or advancing. Photographs of the ice cap were made by the expedition for comparison with other photographs to be made on next summer's expedition to definitely establish that the ice cap is growing smaller.

Next year, the party will "strike" out with rock cairns, the outermost edge of the ice cap, so that scientists in future years can determine with accuracy the rate of recession or advancement.

MacMillan reported that there was no serious accident on the trip, which started from Wiscasset in June, and that the ten members of the expedition remained in good health. The only accident occurred off Cape St. George, Newfoundland, on the return trip, when Kenneth Hawson, son of Frederick H. Rawson, Chicago banker, and Frank Henderson, were both thrown into the surf. A small dory capsized as they were going ashore for supplies.

The party erected a portable school house at Nain, in Northern Labrador, for the use of the Moravian missionary, the Rev. Paul Hettasch, on the agreement that his daughter, who is to be the teacher, will instruct the Eskimo children in English. Next year, an American girl will be taken north to assist her.

Dr. Reginald Fernald, of the Harvard dental school, installed sets of teeth for a number of the Eskimos, to replace some of the 1,000 removed last year by dentists. He also made a comparison of the teeth of primitive Eskimos, and those who have been affected by contact with civilization.

Dr. Fernald found the primitive Eskimos' teeth showed no decay and had thick enamel, though they took no care of them. They ate practically all frozen meat. The condition of the teeth of the Eskimos farther south, whose association with civilized people caused them to eat canned meats, bread and other foods previously unknown to their race, was found not so good.

The reporter came idly into the office. "Well," said the editor, "what did our eminent statesman have to say?"

"Nothing."

"Well, keep it down to a column."

"He told me he loved me."
"And what did you say?"
"That I loved - pearls, diamonds and furs." - Karikaturer, Oslo.

W. N. U. 1908

Showing Respect For Colors

People In Canada Appear Lax In This Respect

The other day the Border Cities Star commented editorially on the fact that few men bared their heads when a regiment swung by on Windsor streets headed by the King's colors, commonly known as the Union Jack. It pointed out that this was disrespectful to the flag and to the King. Just a day or so before the Stratford Beacon-Herald suggested that people in passing war memorials should salute in some way or other, pointing out that it is done as a matter of course in England. Few people do it in Canada and the number who do it seems to get smaller year by year, but both editors are absolutely right in their contention. - Lindsay Post.

JACKET SUIT WINS

A printed Kashmir jersey in Falou's grey tones with tuck-in blouse of beige wool jersey is outstandingly chic for the college miss, high school girl or business woman. Style No. 712 is one of the smartest jacket suits of the season. The skirt is box-plaited across front, and attached to pointed shaped yoke that secures flat hips. The belt shows raised waistline, youthful, new fashion. The blouse is double breasted with rolled shawl collar. The jacket collarless with fitted sleeves and pointed pockets.

It is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. It will add much interest to your wardrobe, for all smart women are choosing jacket suit for sports and general daytime occasions. It is stunning for more formal wear made of black velvet with blouse in eggshell shade satin crepe. Plum shade in sheer tweed with matching silk crepe blouse, and bottle green silk crepe with beige are chic.

Pattern price 35 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

Buy Canadian Wood Pulp

Japan Is One Of Dominion's Best Customers

Canada profits from the fact that the standard of literacy is extremely high in Japan, one important result of which is that a vast number of newspapers, magazines and books are published, which altogether have a truly enormous circulation. This in turn demands a large quantity of wood pulp, from which to manufacture the paper, and of this Canada is one of the chief sources of supply. A price war has been in progress for some time between the Canadian pulp companies and Japanese manufacturers of the same commodity, who secure their raw material from the forests of the northern islands of Saghalin and Hokkaido.

It is now reported that an agreement is about to be reached between two groups by which the Japan pulp mills will recognize a certain maximum quantity of Canadian pulp being imported, in return for which the Canadian industry will agree to a scale of minimum prices.

The Canadian mills have been supplying large quantities of pulp to Japan at prices which the Japanese producers declare have caused them a great deal of discomfort. This would be intensified when Japan returns to the standard which is now expected to take place in the not distant future.

The Japanese mills have put forth strong arguments before the government commission which is now sitting to formulate a thorough revision of the tariff, in order to bring about an increased tariff on wood pulp.

If this were successful, it would place a serious check on Canada's expanding trade with Japan and the combination of circumstances has led to the truce that seems about to be concluded.

May Try Grafting

Crossing With Northern Species Might Improve Berry Fruits

Varieties of raspberries and gooseberries may be improved by grafting with species from Manitoba's north country, as result of a scientific expedition to Hudson Bay. Knowles Ryerson, of the Bureau of Foreign Plant Introduction at Washington, D.C., and a number of other scientists spent a month in this country between The Pas and Churchill, bay port.

Abundance of raspberries and large gooseberries of the smooth variety were found along the Churchill River.

Plant improvement through the crossing of hardier varieties of plants with those already developed was the purpose of the expedition.

"Do you keep powder here?" asked the city young lady at the village stores.

"Yes, madam," said the shopkeeper, "washing, baking, custard, plate, face, tooth, insect and gun!"

Aluminum chloride is now successfully used in making gasoline from high-boiling petroleum oils.

Novel Culinary Creation

C. Anderregg, head chef, and O. Westerlund, pastry chef, of the Chateau Lake Louise in the Canadian Rockies, with the model made entirely of sugar of the "Countess of Dufferin," first locomotive in the Canadian West, which was prepared as a centrepiece for the visit of E. W. Beatty, chairman and president, and other directors and officials of the Canadian Pacific Railway, on their recent tour of inspection in the west. Candied roses are in the tender and candy-floss leaves from the smoke-stack. The "Countess," arrived in Winnipeg in 1877, up the Red River on a barge, and is now exhibited as a historic relic in a park in Winnipeg. She appears as a dwarf beside the new 100 foot oil burning giants of the "6600" class, the greatest in the British Empire, used by the Canadian Pacific on the main line in the Rockies and Selkirk.

Forces At Work To Bring About More Amicable Relations Between Britain and U. S.

Canadian Potatoes To Argentine

Demand From Southern Hemisphere For Canadian Tubers Both For Seed and Table Use

Orders for Canadian certified seed potatoes have been placed by growers in Argentina with the Canadian Trade Commissioner in Buenos Aires. These orders have been passed on to the Canadian Federal Department of Agriculture and through the Markets Extension Division of the Fruit Branch arrangements for placing shippers in Canada in touch with the buyers in Argentina will be made. In the meantime negotiations are being carried on with Argentine importers concerning shipments of Canadian-grown potatoes for table use. There is a probability of certified seed potatoes being shipped this year from Eastern and Western Canada to South Africa and the Netherlands East Indies. It would seem that 33,621,255. Eleven of the associations handled 167 1/2 cars of livestock valued at \$240,767. Total sales for the 216 associations were \$3,979,773 and net earnings were \$135,963.

Co-Operation In Saskatchewan

Two Hundred and Eighty-Five Co-Operative Societies Registered In The Province

There are 285 local co-operative associations registered in the province of Saskatchewan, practically all of which are engaged very largely in buying farm supplies. Two hundred and sixteen of the associations report 13,819 shareholders with a total paid up capital of \$569,820 and total assets of \$1,638,139 as at April 30, 1929. Supplies were handled in the year under review to the value of \$3,621,255. Eleven of the associations handled 167 1/2 cars of livestock valued at \$240,767. Total sales for the 216 associations were \$3,979,773 and net earnings were \$135,963.

Not Always Fatal

A wound in the heart is usually but not always fatal. The hospital records for the war reveal many interesting cases in which soldiers lived with bullets in their hearts. One soldier lived two months with a bullet in the interior of his heart. Many others lived after bullets had come in contact with the heart and injured it.

Small Boy: "What is college bred, Pop?"

Pop (with coin in college): "They make college bred, my boy, with the flour of youth and the dough of old age."

The difficulties of world naval reduction are yet to come. For the moment we may rejoice that at any rate the very real danger of a race in naval armaments is over. How great that danger was is not always recognized. If history were really "determined," if the gloomy theory that men were bound by forces outside their control always to repeat their mistakes was anything but a gloomy fallacy, Great Britain and the United States would now have entered upon that period of rivalry which century by century has culminated in war between the two stronger political and economic powers.

To those who remembered the history of Anglo-German relationships during the twenty years which preceded the last war nothing was so ominous as the repetition of the phrase that war between Great Britain and the United States was "unthinkable." War between us and "our German cousins" was for years pronounced "unthinkable," until, with equal gibes, men began to term it "inevitable." We were perhaps again on the edge of that slope.

We have been saved from taking the first dangerous steps. Powerful economic forces which have sufficed to turn other countries into the paths of an aggressive imperialism were at work also in the United States. But the Great Navy party suffered last year a defeat from which happily it should now never recover.

The outstanding problem which still makes for ill-will between the British Commonwealth of Nations and the United States is the doctrine of the freedom of the seas—an ironical name for an out-of-date theory which Great Britain was able to impose on other nations when Britannia still ruled the waves alone. When that cause of ill-will is gone we may feel that the English-speaking people have turned their backs upon the slope that leads to war and are on the high ground beyond which is peace.—Manchester Guardian.

Hard Wheat From Irrigation

High Yields Of No. 1 Quality Secured This Year On Alberta

Irrigated Lands The accepted theory that hard wheat cannot be produced from irrigated lands must be discarded. Wheat being marketed this year from irrigated areas in Southern Alberta is grading No. 1 in quality and running high in yield. One field of 140 acres yielded 6,160 bushels of No. 1 Marquis wheat, an average of 44 bushels to the acre. Another irrigation farmer threshed 14,000 bushels from 400 acres.

Irrigation is extensively employed in some parts of Southern Alberta, where light rainfall is supplemented by water from the streams which come down from the mountains. The irrigated areas produce large quantities of alfalfa, sugar beets, corn, sunflowers, and general fodder, and cereal crops.

"Sarah," called the mistress from upstairs, "I hope you turned the gas on in the drawing-room, as I told you."

"Yes, ma'am," answered the new servant; "can't you smell it?"

"Another new dress! Where am I to find the money for it?"
 "I didn't marry you to give you advice on financial matters." — Musette, Vienna.

Thanksgiving Day

Advance Opinion That Day of Thanksgiving Should Be Fixed For October

That is a good suggestion that comes from the Canadian Chamber of Commerce, that Thanksgiving Day should be fixed for some time in October. Before Armistice Day was celebrated along with such a whirlwind of thanksgiving that people thought it should be continued for all time. Thanksgiving Day was held in October. Then, with the harvest safely housed, people gave thanks for that that made everybody thankful that he was alive.

Now thankfulness for the end of the war has mellowed into memories of the heroic dead—memories that do not fit in with the joyousness that characterizes the regulation Canadian Thanksgiving of feasting and sport. Armistice is a day apart. It lends itself to solemnity, mingled with sorrow. Let it have early November all to itself. Put Thanksgiving Day back where it belongs. Toronto Telegram.

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas pains in the intestinal tract, pains around the heart, sour risings in the throat called heartburn, are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by stomach to function properly. If the blood is thin the stomach becomes sluggish, food lies undigested, gas troubles causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine can do this so promptly as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ and nerve in the body, and thus not only banishes indigestion and dyspepsia, but also all other troubles having their origin in weak watery blood.

The splendid results following the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kempton, N.B., but now living with her son at West Bethel, Me. Mrs. Cushing writes: "I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. Always after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at my old home and also at West Bethel, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to the good friend who gave me the advice. I soon found the pills helping me and by the time I had taken nine or ten boxes I was completely restored to good health. Though I am now in my 74th year I am feeling as well and smart as I did at 35, and am enjoying life once more."

You can get these pills through any dealer in medicine, or by mail, 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Floating Theatre

An old four-masted schooner will be fitted up in the near future to form a floating theatre. The ship will be called Pro Arte, and will cruise around the world giving plays representative of German spirit. It will contain a modern stage and seating capacity for 500 persons.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

All products exported from Spain are to bear a national label. A "Made in Canada" label on all Canadian exports might impress on other nations just how much the Dominion does export.

Many mothers can testify to the virtue of Mother Graves' Worm Expeller, because they know from experience how useful it is.

Red brick owes its color to iron oxide in the clay; but brick is the result of iron sulphide.

VICKS VAPORUB

OVER 15 MILLION JARS USED YEARLY

Invents New Torpedo

Don Manuel Garcia Diaz, Spanish naval officer, is said to have invented a torpedo which can be fired without detection by a submarine. Where the old type torpedoes left a noticeable wake after its release, the new one leaves nothing to show its path. Submarines could strike with these without warning and without detection.

Had Diarrhoea

Bowels So Active

Fearful For His Life

Mrs. S. J. Jago, Canobie, N.B., writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of and after the second dose I saw an improvement. I gave him almost half a bottle and he was completely relieved. "I have used it for the other children, and my husband and myself. My husband gives it for colds and when he goes away from home to work he always takes a bottle with him."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

A Real Diplomat

Speaking of quick thinking, a man recently overlooked his wife's birthday. Fearful she reminded him of it. "Listen, darling," he said, "I know I forgot it, but there isn't a thing about you to remind me that you are a day older than you were a year ago."

Black Strip Frees Boat

Employment of the principle that black absorbs the sun's rays and holds the heat enabled the captain of an ice-bound steamer in a lake in Alaska to extricate his ship. He had a strip of refuse oil and lampblack, 40 feet wide, swabbed across the frozen lake. In a short time the strip softened sufficiently to allow the steamer to break through.

Minard's Liniment for Warts.

Had Good Reason

Sir James M. Barrie, the noted author, has revealed why he is so fond of Glasgow. Speaking of his younger days, he said there was once a horse show in the Scottish city. "I patronized it and lost a penny. I went back at night, climbed the paling and searched for it. I found three pence. No wonder I have a friendly feeling for Glasgow."

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now."

—Mrs. J. Malin, R. R. No. 5, Berlin St. East, Hamilton, Ontario, Canada.

Lydia E. Pinkham's Vegetable Compound

Small aeroplanes recently exhibited at the English Aero Show, and costing \$1,700 each, are capable of 85 miles an hour over long distances. They carry only one man.

Mechanical cotton pickers are put on the market, it is reported.

Minard's Liniment for Neuritis.

SUNDAY SCHOOL LESSON

OCTOBER 27

THE CHRISTIAN VIEW OF RECREATION

Golden Text: "I came that they may have life, and may have it abundantly."—John 10:10.

Lesson: Jeremiah 31:12, 13; Zechariah 8:5; Matthew 11:16-19; Mark 2:18-28; 6:30-32; John 2:1-11.

Devotional Reading: Philipians 4:4-9.

Explanations and Comments

Jesus' Religious Teaching: A Call To Joyousness, verses 18-20.—The strict Jews, like the Pharisees in the parable of the Pharisee and Publican, fasted twice a week, on Mondays and Thursdays. The disciples of John the Baptist and the Pharisees fasted, but the disciples of Jesus did not. The former went to Jesus and complained because his disciples did not observe the fast. "Can the sons of the bridechamber fast, while the bridegroom is with them?" Jesus asked. The friends of the bridegroom conducted the bride and her companions to the house of the bridegroom with singing and playing of musical instruments, and they remained there for a week of feasting and mirth. The Pharisees, however, even from prayer and worship during such festivities. "As long as they have the bridegroom with them, they cannot fast," continued Jesus, "but the days will come, when the bridegroom shall be taken away from them, and then will they fast in that day."

When Christ has withdrawn from the soul, the sense of darkness, hide or experiences of sin banish Him from the soul, or the strong need of a clearer sense of His presence overcomes the desire for food, or a failure in doing work indicates lack of His presence and power (Matthew 17:21), then there will be fasting. Fasting is truly Christian only when it is the natural expression of Christian experience."

Lyman Abbott.

I Am Come That They May Have Life, and May Have It Abundantly, verses 23-26.—The Sabbath controversy was one of the great importance in the eyes of the Pharisees. During the Jewish exile in Babylon, when the Jews kept the Sabbath, the strict keeping of the Sabbath became a chief part of multiplied regard to the observance required. The Sabbath was the seventh day of the week. The reason why we keep the first day is thus given by Justin Martyr (second century): "Sunday is the day on which we all hold our common assembly, because it is the first day on which God wrought a change in the darkness and made the world, and Jesus Christ on the same day rose from the dead." Said Alcian, writing at the close of the eighth century: "The observance of the former Sabbath has been transferred very fittingly to the Lord's Day by the custom and consent of the people."

An Oil Of Merit.—Dr. Thomas' Ecolerite Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of careful investigation of the healing qualities of certain oils as applied to the human body, and made the world, and Jesus Christ on the same day rose from the dead." Said Alcian, writing at the close of the eighth century: "The observance of the former Sabbath has been transferred very fittingly to the Lord's Day by the custom and consent of the people."

THE RAMSAY CO.

Dept. 273 BANK ST. 167 OTTAWA, Ont.

He Asked Them

Does It Pay To Clip Cows?

A CERTAIN farmer wanted to know the facts about clipping cows so he wrote us for names of those owning clipping machines. He wrote them. Now he himself is so pleased with the Stewart clipping machine he sent us the letters which made him decide the clipping machine is a good investment. Here are some of them:

"If short of help in clipping reduces time necessary to keep cows clean—and must say since using the machine we had not any trouble with lice."

Jordan.

"Before we clipped our cows we had a high bacteria count, whereas after we clipped them we had a very low bacteria count. Thus improving the quality of our milk."

Whitby.

"And it certainly is a wonderful help in reducing lice."

Gadhill.

"We find it much easier to keep them clean and free from vermin when clipped. To have clean milk you must have clean cows. We raise quite a number of calves every year and in that way we always have a number of cows to sell. The clipping to improve the appearance of the cows that I think it easily adds 5 or 10 dollars to the value of an animal."

HOW TO CLIP COWS

Manure, the principal source of bacteria, cannot collect and so milking time rub off into the pail the hair on udders, underlines, flanks and tail is kept clipped short all winter.

Lice seem to congregate along the spine, which explains why some farmers clip a six-inch width from tail to ears.

Farmer who have warm stables and drink water inside, usually clip their cows all over in the fall.

Buy a clipping machine and make more money from your cows—with Stewart No. 1 Clipping Machine. It is the most accurate clipper with it. Strong, sturdy, and running smooth will last for years. At your dealer, \$12.50. Satisfaction or money refunded.

History and Canada

331 Carlaw Ave. Toronto 2

ALMOST ALL OF THIS YEAR'S CROP IS OF HIGH GRADE

Saskatoon, Sask.—This year more than 90 per cent. of the wheat falls within the statutory grades. Protein content averages 14 per cent., and in some cases has run as high as 19 per cent. Each year since the Canada Grain Act was passed "commercial grades" have been fixed for grain in some way damaged. This year no such grades could be fixed, because there was too little of such grain to make a fair sample. This year is the first time such a thing has happened.

These were some of the statements made by Dean W. J. Rutherford, of the University of Saskatchewan, during discussion following his address to the monthly meeting of the local branch of the Canadian Society of Technicians, Agriculturists at the University, on the subject of "The Grading of Grain."

The Canadian system of grain grading, though not perfect, was, in the opinion of all the chief wheat buying countries the best system in the world, the dean implied in his address. Canada's chief competitors, Australia and the Argentine, were taking steps to imitate the western system. The American system was encumbered with too much detail, he explained.

Dean Rutherford believed that eventually the system of sampling from cars in the railway yards would give way to the practice of basing the grade on the unload sample at the head of the lakes or at Vancouver. More than 50 per cent. of the cars, he pointed out, were too full for sampling. Both railways and elevators encouraged overloading, he said, as they found it economical. In cars so loaded samples could not be taken with a probe.

On the other hand automatic sampling devices had been developed, taking a continuous series of samples during the unloading, which gave an absolutely reliable sample. This system was kept for a sufficient length of time to allow for inspection.

He stressed the point that the statutory grades should be kept uniform from year to year. Occasionally concessions had been made to gain some temporary advantage, and these had resulted in a loss of confidence in the Canadian grading by overseas buyers and a loss in the long run to the Canadian producer.

New machinery, Dean Rutherford said, had led to many changes. Separation of weeds and foreign varieties of grain could now be made. Wild oats were now a commercial commodity and were sold in the East Indies, where they were fed to mules. The pool, he said, made more than 40 cents a bushel out of wild oats last year.

Viewed Dirigible From Air

Prince Of Wales and Prince George Used Airplanes

London, England.—The Prince of Wales and his brother, Prince George, it became known, went in aeroplanes appropriated for their use to meet the dirigible R-101 making its trial voyage.

Both took off shortly after noon from Sunningdale, Berkshire, and toured the home counties in search of the dirigible. They finally found it and after circling it and viewing it from the air, both returned to Northolt, Middlesex.

Men Accept Invitation

London, England.—So far 150 holders of the Victoria Cross have accepted the invitation to a dinner in the parliament buildings two nights before Armistice Day, at which the Prince of Wales will be present. Many pathetic cases of poverty among these heroes have been discovered.

Opposed To Conscription

Toronto.—Without dissent or debate the American Federation of Labor expressed its opposition to measures pending before Congress for universal conscription in time of war.

W. N. U. 1808

Madame Curie Visits America

Came To Attend Celebration Held In Detroit For Edison

New York.—Timidly gazing about her in wonderment, a little old lady in black came slowly down the gang-plank from the liner "Le de France" here.

The bustling, chattering crowd on the pier fell silent as her frail figure appeared on the deck above them. "It's Madame Curie," the whisper went around.

Her steps carefully guided by Ambassador Charles Gates Dawes, who had arrived on the "Le de France," and by Owen D. Young, who had come down to meet her. Mme. Marie Sklodowska Curie, co-discoverer of radium, set foot for the second time on American soil.

She came to honor her fellow-student, Thomas A. Edison, and attended a dinner given in celebration of the 50th anniversary of his invention of the incandescent light, in Detroit.

Mme. Curie will be the guest of President and Mrs. Hoover, at the White House, October 29 and 30, and will receive while there a cheque for \$50,000 raised in this country for the purchase of a gram of radium which she will present to the Radium Institute at Warsaw, Poland, her native city.

"Journey's End"

British Dramatic Presentation Will Furnish Treat For Western Audiences

Regina.—A rare thing in the theatre is a play that appeals to English and American audiences alike. "An even rarer thing is a play that will run simultaneously and successfully in both London, England, and New York. "Journey's End," which comes to the Grand Theatre, Regina, for three nights, beginning Monday, October 28th, has not only done both of these things, but for nearly a year it has been the foremost and undisputed hit in both theatrical capitals.

"Journey's End," a war play by Robert Cedric Sherriff, was originally put on in London, where it took the town by storm. The English critics accorded it praises that can hardly be duplicated in the modern theatre.

"Journey's End," is a quiet, restrained study of men in war. The cast is composed entirely of men, and the scene is laid in front line dugout before St. Quentin. We see a small group of British officers waiting for the great German attack that they know is bound to come, and we see their various reactions in the face of the common danger. That is all. Yet in this simple, unadorned fragment of war-time life, Playwright Sherriff has managed to pack more human interest, excitement, humor, heroism and tragedy than one would get in an entire season of ordinary plays.

Itinerary Made Public

Premier King Will Speak In Eight Western Cities

Ottawa.—The itinerary of Premier Mackenzie King's western tour made public. The prime minister will speak at Winnipeg, Saskatoon, Prince Albert, Edmonton, Prince Rupert, Vancouver, Calgary and Regina.

Hon. J. L. Ralston, Minister of National Defence, is making a tour of inspection of the West at the same time and will therefore accompany Mr. King for much of the tour. Senator Andrew Haydon, of Ottawa, will also accompany the prime minister.

Bandits Torture Farmer

Hung By His Thumbs and Threatened To Be Burned Alive

Lethbridge.—A strange story comes from the border where, about 15 miles from Coutt-Sweet Grass, Steve Currie, farmer, was hung by his thumbs, threatened to be burned alive with distillate and robbed of \$200 by two unknown bandits.

The story has been authenticated by the Alberta Provincial Police, who believe that one of the bandits is the man who held up Fred Richardson at the C.P.R. station here and robbed him of \$32, as the holdup at Sweet Grass took place the morning after.

A revision of the French dictionary, started in 1878, is not expected to be finished before 2000.

WITH MACALPINE PARTY

Richard Pearce, editor of Northern Miner, the best known mining editor in Canada, who was accompanying the MacAlpine party on his second trip across the barren lands. On his previous trip he was with "Punch" Dickens, who by his meritorious feat won the McKee trophy.

Presented With Home

Samuel Larcombe, Famous Wheat Grover, Is Recipient Of Gifts From Admirers

Birtle, Man.—Samuel Larcombe, aged pioneer agriculturist of the western plains, whose discoveries of rust resistant grains have made him internationally known, tonight sleeps in a new house, located amid the rolling and fertile fields overlooking the picturesque Bird Tail Valley.

Today, surrounded by hundreds of friends, by the Lieutenant-Governor of Manitoba, Hon. James D. McGregor, and representatives of the provincial government, the house was presented to Mr. Larcombe, a tribute to his work which has greatly enriched Canadian agriculturists. Recently the Larcombe home was destroyed by fire.

Friends throughout Canada contributed funds for the construction of the modern home.

Daily Air Mail Service

St. Paul, Minn.—Daily service over an air route between Winnipeg and St. Paul—instead of every other day—is announced with the statement that the Schlee-Brook Aircraft interests have acquired the Canadian-American Air Lines. Service between the Twin Cities and Port Arthur is to be inaugurated as soon as a field at the head of the lakes is prepared.

More Buildings Needed

Saskatoon.—In order to keep pace with the growth of the University of Saskatchewan, more buildings are necessary, particularly one for arts and science, according to President Murray, who addressed a gathering of over 300 students at the Arts and Science dinner.

Powers Accepted Invitation

Will Attend Naval Conference In London In January

London, England.—The British Government has received official replies accepting its invitations in every instance to a five-power naval conference here in January and also expressions of willingness to participate in proposed preliminary discussions of the problems of limitations.

The texts of both the Italian and French replies were published. Italy expressed the desire to collaborate in any step calculated to eliminate the dangers of excessive armaments and said its view on the subject was too well known to require restatement.

The text of the Japanese acceptance had also been received, but has not been made public as yet.

Famous Library Restored

Louvain Library Richer In Some Respects Than Before War

Brussels.—When the Louvain Library was destroyed by fire, in August, 1914, during the German occupation, it contained some 350,000 volumes, including 1,500 incunabula and several hundred manuscripts from the twelfth and thirteenth centuries, valued at more than a million dollars. Today, it has been completely restored, and in some respects, is richer than before.

By virtue of the Versailles Treaty the Germans promised to restore the Library's contents, and since the armistice they have restored a total of 300,000 volumes, inclusive of 600 incunabula and 300 manuscripts, including one of the eleventh century.

Ottawa Welcomes Canoeists

Young Montrealers Making Unlucky Trip From Vancouver To Halifax

Ottawa, Ont.—Richard Lesage and Paul Paquin, of Montreal, trans-continental canoeists, were welcomed to the capital by Mayor Arthur Ellis. Later a civic automobile was placed at the disposal of the intrepid paddlers and they visited Mayor Lambert of Hull, Quebec.

The unique trip by which the young Montrealers have travelled from Vancouver, and plan to reach Halifax, N.S., some time next month, was temporarily halted here while Lesage travelled by train to Montreal because of the serious illness of his sister.

West Buys Eastern Potatoes

St. John, N.B.—Shipments of potatoes from Carleton and Victoria counties, in New Brunswick, are being made to Western Canada, particularly the prairie provinces. The recent ruling of the railways, giving the privilege of bagging the tubers while in transit, is helping the situation and shippers claim the whole New Brunswick crop will find good markets.

Women Work Wires

Women make excellent telegraph operators, according to Mr. J. McMillan, general manager of the extensive Canadian Pacific Railway telegraphs. The advent of automatic sending and receiving instruments and other appliances eliminated much of the heavier work formerly done by men, and in addition to vastly speeding the service, gave an opportunity for efficient typists to become operators as the automatic machines have a keyboard like that of a typewriter, and a knowledge of telegraph code is not required. Roughly forty per cent. of the operators in the employ of the C.P.R. telegraphs are women, about twenty-six per cent. working on Morse shifts, and forty-two on the automatic machines. The photograph shows two girls operating one of the battery of sending machines. Inset is Mr. McMillan, who controls 160,287 miles of wires.

ASK FOR FREIGHT RATE EQUALITY FOR THE WEST

Ottawa.—Complete equalization with the rates to the head of the lakes was demanded by representatives of the British Columbia and Alberta governments in an appeal to the Dominion cabinet against the general order of the Board of Railway Commissioners on the subject. Leon J. Lander, M.P., counsel for British Columbia, and S. B. Woods, K.C., counsel for Alberta, submitted there should be no higher percentage in the rate basis over the mountains than in the rate basis in any other part of Canada.

Counsel for Manitoba and Ontario, the Winnipeg Board of Trade and the City of Winnipeg, as well as counsel for the two railway companies, have given notice of their intention to oppose the appeals.

The millers of Canada are represented by counsel, but so far their attitude has not been disclosed. They probably will support the appeals. A majority of counsel and the cabinet were agreed that the provincial governments appeal signed by the governments of British Columbia, Alberta and Saskatchewan, would be postponed after a protest from other parties interested that sufficient notice had not been given.

After the United Farmers' appeal had been presented it was decided that if any lawyers wanted to go on with the portion of the second appeal which coincides with the first, there would be no objection. A motion put by the Hon. A. B. Hudson, for the Manitoba Government, that the question of the mountain differential should not be discussed at this time, was disallowed.

The result has been a prolonged discussion on the merits of the British Columbia case and the validity of the separate and conflicting decisions rendered by the board of Railway Commissioners on the mountain differential.

Arranges Atlantic Flight

Major Kingsford-Smith Plans London-New York Trip Next Summer

Vancouver.—Major Charles Kingsford-Smith has pretty well completed arrangements for a non-stop flight across the Atlantic from London to New York next May or June, he said, following his arrival in the city in which he spent several years of his school days.

"I have one more ocean to cross," he said as he referred to the 7,000 miles his plan. The Southern Cross, has flown since he made his trans-Pacific flight early last year. "We left the Southern Cross in the Fokker factory, in Holland, for an overhaul," he said. "She will be practically rebuilt, but the old engines, which have crossed the Pacific and Indian oceans and have been around Australia on many trips, will be in the Southern Cross when we start west across the Atlantic."

Urge B.C.-Alberta Highway

B.C. Good Roads League Endorsed Resolution To Government

Harrison Hot Springs, B.C.—A resolution asking the provincial government to complete an inter-provincial highway as quickly as possible was unanimously endorsed by the Good Roads League of British Columbia here. No suggestion was made as to whether the Big Bend route or the Kamloops-Jasper link should be used. The convention endorsed a recommendation favoring renewal of federal aid for highway construction. J. J. Johnston, of New Westminster was elected president for the ninth time.

Ask More Pay For Civil Service

Ottawa.—Creation of a minimum annual salary increase of \$120 for Federal Government Departmental workers, was requested by President V. O. Philand, of the Civil Service Federation of Canada, when he appeared recently before the civil service commission. A complete and careful consideration of the request was promised by the commission.

SCALED TENDERS addressed to
the undersigned and endorsed
"Tender for new Federal Build-
ing, Camrose, Alberta," will be re-
ceived until 12 o'clock noon, Tues-
day, October 29, 1929, for the con-
struction of a new Federal Building
at Camrose, Alberta.

Plans and specification can be seen
and forms of tender obtained at the
offices of the Chief Architect, De-
partment of Public Works, Ottawa,
the Resident Architect, Asst. Recv-
er General's Bldg., Calgary, Alta.,
the Postmaster, Camrose, Alberta,
and Frank P. Morris, Architect, 1212
—10th Avenue, Edmonton, Alta.

Blue prints can be obtained at the
office of the Chief Architect, De-
partment of Public Works, by depositing
an accepted bank cheque, payable to
the order of the Minister of Public
Works which will be returned if the
intending bidder submits a regular bid.

Tenders will not be considered un-
less made on the forms supplied by
the Department and in accordance
with the conditions set forth therein.
Each tender must be accompanied
by an accepted cheque on a chartered
bank payable to the order of the
Minister of Public Works, equal to 10
p.c. of the amount of the tender.
Bonds of the Dominion of Canada or
bonds of the Canadian National Rail-
way Company will also be accepted as
security, or bonds and a cheque if re-
quired to make up an odd amount.

World Cruising Damsels Wear Great Variety of Costumes

ROUND-THE-WORLD DAMSEL GIRLS

People to whom a world cruise
or any other long winter voyage
is an experience yet to be enjoyed
may wonder what those more for-
tunate folk do to pass the time.
While they are sailing the Seven
Seas. It may interest the stay-
at-homes to know that the time
spent on these pleasure jaunts
rarely hangs heavy for all sorts
of diversions are planned for the
entertainment of the globe-trot-
ters. The bridge find has his
bridge parties, the amateur pho-
tographer his camera expeditions
and the dancer his dancing, but
one of the most fascinating of all,
to the fair sex, at least, is that
of purchasing and trying on cos-
tumes typical of the various far-
off lands visited. Pictured above

for instance, is a berry of beauties
photographed aboard the
world-cruising Canadian Pacific
liner "Empress of Australia" en-
route from China to Japan during
her 1928-29 annual round the
world cruise. They are blossom-
ing out in dazzling peking suits
which they purchased in the
Orient. This collection of pseudo-
Chinese maidens must have caus-
ed many a masculine heart to
mist a boat or two! The other
group of ladies are wearing man-
darin coats acquired during an
earlier trip around the world.

At practically every port of im-
portance it is possible for pass-
engers who are so inclined to pur-
chase some little memento, be it
a shawl, a miniature Buddha, a

ring, a native doll, a walking
stick or other souvenir of their
travels. During a world cruise
the "Empress of Scotland" sev-
eral years ago a cruise member
from Denver, Col., purchased a
toy elephant for each member of
the Denver Kiwanis Club of which
he was a member and posed with
his collection of pachyderms for
the vessel's corps of amateur
photographers. Spanish shawls,
parasols and many other articles
complete the list of possibilities
for globe-trotters with a penchant
for collecting.

The "Empress of Australia"
will sail again on a globe-gridding
voyage, leaving New York Decem-
ber 2, 1929, for a cruise of 137
days.

Here and There

Differences in the price of wheat
at Chicago and Winnipeg and re-
garding the wheat movement in
western Canada is due to the view
of Canadian wheat owners that
good quality justifies higher price
and higher prices while British and
continental buyers believe they can
obtain their present requirements
from the Argentine and the United
States. The explanation of this
condition given out in a statement
recently issued over the signature
of E. W. Beatty, chairman and
president of the Canadian Pacific
Railway and Sir Henry Thornton,
president of the Canadian National
Railway. Until the present im-
passe between buyer and seller is
adjusted there will be a practical
stoppage in the movement of grain
with consequent serious effects on
gross and net earnings of both the
rail and water carriers.

Travelling 300 miles north of
Edmonton over the waterways
branch of the Northern Alberta
Railway to Waterways and Port
Murray, E. W. Beatty, chairman
and president of the Canadian
Pacific Railway, accompanied by a
number of directors of the rail-
way, inspected the salt wells and
star sand deposits of the region.
Experts of the Canadian Pacific
and Canadian National Railways
are at present examining these de-
posits which Mr. Beatty said he was
satisfied would be a great asset
to Alberta.

Delegates from the Canadian
Chambers of Commerce who have
been travelling extensively in the
west of Canada, mainly over the
Canadian Pacific lines, have through
their national committee reiterated
their stand in favor of a contin-
uance of assisted immigration of
selected British settlers of a desirable
type to Canada.

Charles Reid, of the Banff
Springs Golf Club, won the Prince
of Wales golf trophy, famous and
coveted prize of gold, from a
field of 47 competitors recently.
His score was 144 net, his handi-
cap being 17. This is the first
time in the history of the competi-
tion that the cup has gone to a
Banff player, Calgary golfers hav-
ing taken it to that city on each of
the four former competitions.

Canada's reindeer industry takes
a big forward step this year with
the trek of 3,000 northern animals
from Alaska into the Dominion.
In November this herd, secured by
Canada from the United States
herds in Alaska, will make a trek
which will take 18 months and
will land the animals in 1931 on
the Arctic coast east of the Mac-
kenzie river.

Australians are "fiercely loyal"
so far as Empire Trade is concern-
ed, and buy, for example, 88 per
cent. of their automobiles from
Canadian manufacturers. Sir James
Murdoch, member of the Legislative
Assembly of New South Wales, told
the Vancouver Canadian Club re-
cently. Sir James had just re-
turned from a cross-country tour of
Canadian Pacific lines and was on
his way back to Australia.

Settlers in the Peace River coun-
try have a definite uniformity of
outlook regarding the country as a
whole, and Col. J. S. Dennis, Chief
Commissioner of Colonization and
Settlement for the Northern
Alberta Railway, who has been in-
specting the northern part of
Alberta on the Northern
Alberta Railway. He was aston-
ished at the readiness of the boards
of Trade and individual business-
men to take a large view even
when it meant work temporary
hardship locally.

NOTICE

IN THE ESTATE OF JOSEPH M.
KULLANDER, late of Stony Plain
in the Province of Alberta, Farmer,
deceased.

NOTICE IS HEREBY GIVEN that
all persons having claims upon the
Estate of the above named Joseph M.
Kullander, who died on the 27th
day of May, A. D. 1929, are required
to file with the undersigned, Solicitor
for the Administratrix of his estate,
by the twenty-fourth day of No-
vember, A. D. 1929, a full statement
fully verified of their claims and of
any securities held by them, and that
after that date the Administratrix
will distribute the assets of the said
estate among the parties entitled
thereto having regard only to the
claims of which notice has been so
filed or which shall have been brought
to her knowledge.

DATED at Stony Plain this 7th
day of October, 1929.

JAMES MALLOCH,
Solicitor for the Administratrix.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer and makes her famous, too. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly becomes romantically interested in John Perry, Al's best friend. On New Year's Eve Al rushes home from the Club Bombo, where he is part owner and master of ceremonies, to find that Molly has eloped with Perry, taking Junior. Al is staggered by the cruel blow. Next morning he visits Marcus, producer of the revue in which Molly appeared, in search of information.

CHAPTER XVIII

Marcus handed Al a tiny marked paragraph from the theatrical column of a morning paper. It read: "Miss Molly Winton, headline in The Merry-Go-Rounders, the most popular Marcus review of the season, has left the nest temporarily for a much-needed rest. Her place will be taken by her understudy, Suzanne Eastman."

"Temporarily?" exclaimed Al.

"Well, we just phrased it that way in case she should happen to come back. That's the meaning of all this, Al!"

Al stared hard at Marcus. Should he tell Marcus the truth, or should he cover up? It was apparent that Marcus knew nothing of Molly's whereabouts—and that was what Al had come to find out.

"Nothing," answered the young song-writer. "It's just as she says—she's tired out."

Marcus leaned back in his chair, studying Al's face carefully.

"Boy, you're holding back on this. I can tell from your expression that

she's done something to you, too. Has she—has she ditched you?"

"I didn't say that."

"I know you didn't, but—your eyes say it. You look as if you hadn't slept for six months."

Al felt himself sagging, but he suddenly stiffened and exclaimed vehemently:

"Listen, Marcus, don't give me away on the stage, would make scandal and I don't want publicity. I want to work it out my own way. But—Molly has left me;—"

"Pshaw! I'll be mum—but when why?"

"Last night—with John Perry. Left a note, she took Junior."

Marcus's face softened in sympathy for this stricken man. Her stood his best song-writer, the boy he had discovered and made famous, the lines of his face sharply etched by pain. Al seemed to have aged overnight.

The producer jumped up, ran around the table, put his arm about Al's shoulders.

"Don't let it throw you! It's a tough break, but you were bound to get it some day from that girl."

"Yes, I know I do now!" Al answered bitterly. "But did you see it coming?"

The producer nodded. "Do you remember that night down at Blackie Joe's three years ago—your insisted that if I bought your song I'd have to give your sweetie, Molly, a good revue job too? I took a long look at Molly and—I decided, she was a cheater. . . . Then, when John Perry came along I saw a few things. But I thought, it might blow over—there was no use warning you. You loved her too much."

"I loved her too much, that's true," admitted Al. "I trusted her completely, and I trusted John Perry, too. I'd like to get that snake alone just once!"

"Again the feeling of rage returned to Al. Marcus's grip tightened on his shoulder.

"Steady, Al. You don't win this

battle that way. Let her go—forget her."

"It's easier to say than to do. Marcus. Besides, she's taken my boy, Junior. That's what hurts most."

"I know, I know," Marcus gently led Al toward a chair. "Here, sit down, pull yourself together. And have a shot of Scotch."

... The days passed like years, until a week was gone. But still there was no trace of Molly and Junior, and no word from them. Somehow, Al managed to live through those terrible days of futile waiting, but he was unable to continue his song-writing, unable to fill his post as master of ceremonies at the Club Bombo.

At the end of the week he came to a sudden decision. He approached Billy Cline, his business partner at the Bombo, for a conference. They sat in the office one afternoon above the ballroom of the Bombo.

"Billy," Al began doggedly, "I can't go on with this. You know why. I can't appear before that crowd downstairs and go through with my wis-e-crazed routine. So I might as well get out, bag and baggage."

"Sell out, you mean?" questioned his partner.

"Yes, just that. I want you to buy my interest and I'll disappear. I'm through with Broadway—the whole life."

"Don't say that, Al," countered Billy. "You've got a thousand more songs in you—every one a hit."

"No," Al shook his head. "It's the end of all that sort of thing."

His partner hesitated. "Well, Al, of course I'll buy your share in the club, but the place won't be the same without you."

"If you're that's true, Bill, but my heart isn't in it. You've got to feel gay to be gay—that is, consistently. I thought I could work through this thing, but I can't, so—It's curtains."

Billy Cline studied Al's face just as Marcus had done, trying to find out some way his friend's problem might be solved. But he ended by making a gesture of acquiescence to Al's proposal. Cline knew in his heart that Al was right about himself—a man can't write songs or carry on in the night club racket unless he can amuse the crowd. And Al's face showed he just couldn't. Cline rose.

"All right, Al. I'll get the books and we'll have an accounting."

As Cline walked away Al picked up a newspaper that an office boy had just left on a nearby chair. He turned it over and—staring at him from the front page—was a large photograph of Molly. The words he read beneath that smiling photo horrified him.

Molly's hard eyes in the newspaper reproduction seemed fixed on Al in cynicism and cruel triumph. In a two-column box he read:

"Interviewed at her suite at the Biltmore today, prior to sailing on the 'De France,' Molly Winton, celebrated songstress and late star of 'The Merry-Go-Rounders,' confirmed the rumor that she is contemplating a Paris divorce from her husband, Al Stone, song-writer and Broadway's favorite master of ceremonies."

That one sentence was enough; Al dropped the paper and jumped up just as Billy Cline returned with the Club Bombo account books.

"What's the matter, Al?" cried his partner, for Al's face was ashen.

"Read this," Al snatched up the paper. "Molly's sailing today for Europe, taking Junior. It means I may never see my boy again! For all I know, they're on the high seas now!"

Cline scanned the article rapidly, but Al interrupted him.

"Have they sailed yet?" he cried in tones of anguish. "Have they taken Junior away without a word?" Cline turned quickly to the shipping news, while Al stood glancing over his shoulder. Down the column their eyes travelled to the part marked "Sailings-Today." And then—"De France—6 P.M." Cline looked at his watch.

"It's three now, Al. You might be able to stop them."

"You mean legally—the police."

"There's just a chance."

"I won't do that. I have my re-

Needless Pain!

Some folks take pain for granted.

They let a cold "run its course."

They wait for their headaches to "wear off."

If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains we once had to endure, if pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drug-stores with complete directions.

ASPIRIN

TRADE MARK REG.

sions. But I must see Junior before he leaves—you don't know what he means to me, Billy!"

Al grabbed up the 'phone from Cline's desk and put in a call for the Biltmore.

"I'd like to speak to Mrs. Al Stone."

Molly was superintending the packing of her bags when the 'phone rang. Junior was playing in the adjoining room of the suite, and John Perry, who had just arrived, was reclining in an easy chair near Molly, smoking a cigarette, his hat and stick beside him. The maid put down an armful of Molly's clothes and moved toward the 'phone.

(To Be Continued.)

Little Helps For This Week

"Give me thine heart."—Proverbs xxiii. 26.

What can I give Him,
Poor as I am?
If I were a shepherd,
I would bring a lamb;
If I were a wise man,
I would do my part;
Yet what can I give Him?
Give my heart.

—Christina G. Rossetti.

O Lord! take my heart, for I cannot give it; and when Thou hast it, oh, keep it! for I cannot keep it for Thee; and save me in spite of myself, for Jesus Christ's sake.

—Fenelon.

EVEREADY

You can use these famous batteries until the heavy zinc plates are riddled full of holes—and they'll still keep on running your radio! Eveready Layerbilt, the only flat-cell "B" battery, is justly popular for its long life and low power cost. Buy Eveready Layerbilts for economy and better service. Made in three sizes.

Canadian National Carbon Co., Ltd.

Radio Batteries
—they last longer

Restless Children

Children will fret, often for no apparent reason. But there's always one sure way to comfort a restless, fretful child. Castoria! Given as the recipe on the wrapper, mild and bland as it tastes. But its gentle action soothes a youngster more surely than some powerful medicine that is meant for the stronger systems of adults.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is any need. In cases of colic, diarrhea, or similar disturbance, it is invaluable. But it has everyday uses all mothers should

understand. A coated tongue calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed to set everything to rights. Genuine Castoria has H. Fletcher's signature on the wrapper. Doctors prescribe it.

Calendar.

 11—Thanksgiving Day.

October Weddings

A wedding took place on Saturday last, at the Greek Catholic church, when Miss Irene Hrabczuk was married to Mr Mike Tashchuk of Spruce Grove. The ceremony was performed by Father Dedick, the pastor. After the ceremony, the bridal party and friends drove to the residence of the bride's mother, where feasting and dancing were indulged in.

The wedding took place in Edmonton, Sat Oct 12th, of Mr Kreshka Klushin and Miss Dora Ungaria. The ceremony took place at Greek Catholic church, Rev Father Oramoudiet officiating. The happy couple gave a reception on Sunday last, to friends at their residence, Muir Lake district.

DANCE,

Garden Valley Schoolhouse
 FRIDAY, OCT. 25
 BARTH'S ORCHESTRA.
 REFRESHMENTS.

Stony Plain and District.

Mr and Mrs Chas Schnitz arrived by motor car from Vancouver, on Friday.

Ma and Mrs Wes Hubbel have returned from a visit to their old home town in Wisconsin.

Mr and Mrs R P Shaw, who held a very successful sale on Tuesday, are moving to Edmonton, where the children are attending school.

At the reorganisation meeting Monday night of the local Hockey Club E H Pidgeon was elected Pres.; E Anderson V Pres; W Rosnan. Sec; Ph Enders, chairman Membership committee.

At the local Court, on Tuesday, Magistrate Williams dismissed the charge against Mr Ziegler, laid under the V & H. T. Act.

A rumor is current in business circles that a branch of the Kash & Karry Stores will soon be opened in Stony.

Services will be held in St Philip's Church at 11.30 on Sunday next.

The local W. I. is holding its Hallowe'en party on Monday next, the 28th.

The good weather on Wednesday allowed some good shooting to be done at the Comet Butts by the members of the Rifle club. The scores are not ready as we go to press, but will be printed in our next issue.

Radio fans will be pleased to learn that the Department of Marine and Fisheries are sending an expert on interference to Stony Plain district in the near future to go into the matter of the radio conditions and interferences at this point.

Armistice day and Thanksgiving day coincide with respect to their both falling on Monday, Nov 11, this year. The Canada Gazette accordingly publishes a proclamation declaring that day to be one of thanksgiving.

Farmers having chickens to sell should bring these to P Henkel, phone 58.

The Wheat Blockade.

A statement issued by the Wheat Pool says: "One of the arguments put up against the Wheat Pool since its organization was that supply and demand governs prices. The Pool has admitted this statement to be true in a broad sense, but there are governing features of vital importance. If the Canadian wheat market had been left to the mercy of the law of supply and demand this fall most of our wheat would be sold before the end of the year at greatly reduced prices and most of producers would wake up to the fact that their wheat was worth more only after it was out of their hands"

Carvel Clippings

Harry Edwards, a resident of this district, passed away in an Edmonton hospital on the 18th inst., aged 23 years. He leaves to mourn his loss his father and mother, Mr and Mrs C R Edwards, of this district. Funeral service was held on Monday, Rev Canon Cornish officiating. Interment took place in the Beechmount cemetery.

Spruce Grove News

Mr and Mrs H L Morryw motored up to Entwistle on Sunday afternoon.

"Sun Life" Martin paid the Grove a visit on Saturday afternoon.

Mr Conrad Fuhr is now assistant manager at the elevator of the Northern Grain Co.

The W. McLeod Co. has purchased a new Velie three-ton truck, for use in its business.

Farmers are still holding out for high prices for their cattle; one local farmer, on Friday, refused \$240.00 cash from a City buyer for three 3-year-old steers. The prediction is made that, when the new U.S. tariff comes in force prices of Canadian cattle will take a tumble.

Bazar and sale of home cooking, by the United church Ladies Aid, in the church building, Sat., Nov. 2.

The fine Bercheron mare for which Sam Bailey and his friends did a lot of searching, has been found—at least her body has. She had wandered into a deserted shack near Graminia, and had fallen thru the floor.

John and Pat Calahon, well known here, were discharged on Tuesday by Judge Crawford, when they answered a charge of assault on Isidore Calahon. The latter had recently been expelled from the Calahon F.R.

News reached here yesterday that the harness shop on 99th St., Edmonton, operated by Geo. Schwindt, had been entered and \$68.00 worth of goods taken.

A notice in Alberta Gazette indicates that a certificate of incorporation has been issued to Spruce Grove Community League. The certificate says: "The object of the society is to develop and promote sports, amusements and other matters in the interests of the community."

GIRL WANTED—Apply at Spruce Grove Hotel.

Social and Entertainment, Holborn Hall, Friday, Nov. 1.

Edmonton Beach

Edmonton Beach is agog these days with plows, fessnos, harrows and drags. Mr Barrie has had a number of men and teams working on the baseball grounds so they will be in good shape for next season's ball teams. The exceptional fine weather this fall has enabled Mr Barrie to get considerable extra work done.

A tennis court grounds has been prepared, and the beach front has been plowed, harrowed and rolled, making a perfect play ground and sand for the children.

Miss Robertson, teacher at Cottage Lake school, and pupils are giving a Hallowe'en party to the parents and the friends tomorrow night, the 25th.

Len Ingle's sawing outfit has just finished a contract at the Beach, sawing the season's wood for Mr Barrie.
